It would be easy to interrupt, if not compromise altogether, the activities of the Ploesti refineries by destroying the following two objectives:

25X1

- a. The highway bridge spanning the Prahova River between Darmanesti and Tigani. This bridge, about 300 meters long, carries the pipelines from the regions of Moreni-Targoviste (Petroleum Regions No. 2 and 5) and the gas line feeding Bucharest, across the river.
- b. The bridge spanning the river Prahova, between Floresti and Calinesti. This bridge, of old construction, has a length of about 500 meters and is used, among other things, to support the pipe and gas lines coming from Regions No. 2 and 5.
